

## How are you crossing the street?

Take some time to think about the different ways in which you can partner with others in crossing street both locally and globally. We can't do everything but we can be intentional with the resources we have and with the places God has called us to.

### LOCAL

In your local community, how can you be **praying**, **learning** about your neighbours, **giving** of your resources and **going** through stepping out and building bridges?

### GLOBAL

Globally how can you be **praying** for people around the world to meet Jesus, **learning** about the world, generously **giving** and asking God if He wants you to **go**?
